International Business & Marketing
2016 - 2018

SKILLS

- HTML
- CSS
- Javascript
- Typescript
- ReactJs
- Git / Github
- PHP
- Wordpress
- Laravel
- NextJs

PROJECTS

Arquivo 1 | ReactJs

October 2021 - Current | File Storage & Sharing Service

This client's system is based on Cloud Computing, similar to DropBox, etc.

The system is offered to clients only and it properly holds Customer Service, and FAQ page.

In this project, it was also implemented an authentication system for both clients and admins.

Adams Davis | Attorneys Agency

July 2021 - October 2021 | Agency website

This project was built using PHP, Wordpress, Sass, Laravel, Git.

Per request, this project required the use of responsive styles, while implementing responsive CTA.

Hospital São José | Voluntary Project

July 2021 - Current

The reason for this project is to create a much faster and safer system for hospital vehicle and locker response. Meaning surgery, transfusion, and other medical emergencies hold a much lower response time.

Personal Portfolio

October 2021 - Current

Personal application with the intent of providing a much cleaner and easier to read portfolio for professional purposes. In this portfolio, I've worked mobile friendly and light/dark themes for better user experience.

CERTIFICATES

React & Redux Fundamentals | COD3R

Artificial Intelligence for Business | .StartSe

Web Developer Course | iMedia

Leadership & Resilience | PUCRS
